Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3611

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8, 9, 14-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Eveleth (USPN 5163527).

Eveleth shows an axle assembly comprising an axle 14 mounted in housing 10 that also encloses a power unit. A drive hub 18 is inserted on an end of the drive axle 14 to selectively freewheel on or lock to the drive axle. A wheel 12 is fixed to the hub. A second wheel and hub are similarly mounted at the opposite side of the vehicle and, therefore, provide a freewheeling wheel.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 10, 13, 17, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eveleth.

Eveleth is silent regarding a means for locking the shaft in the housing and a sleeve for connecting the motor output shaft to the axle shaft. However, it is old and well known and would have been obvious to provide a brake for locking the drive wheel, in order to prevent the device from rolling when not in use. It would also have been

Art Unit: 3611

obvious to provide a sleeve connection between the motor output and drive axle shafts, in order to easily assemble the vehicle from preformed parts.

5. Claims 11-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 1-7 are allowed.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Simons shows a selectively powered wheel.

Cladwell and Rochfort show auger transport vehicles.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M. Boehler whose telephone number is 571-272-6641. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6612. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
